ABOUT ME

Syed Kareem is an experienced full-stack web developer specializing in HTML, CSS, JavaScript, jQuery, PHP, and MySQL. I completed my Bachelor of Technology in Mechanical Engineering from the University of JNTUA, Kadapa. At Optimus IT Solutions, I contributed significantly to diverse projects, including medical, cab services, and jewelry websites. Currently, at Techmatics, I lead the development of dynamic websites, focusing on creating user-friendly interfaces and integrating APIs seamlessly.

I take pride in writing clean, scalable code and ensuring adherence to industry standards through rigorous testing and continuous learning. Independently, I've developed a dynamic e-commerce platform and a detailed website for Ruhi's Kitchen, emphasizing operational transparency and enhancing user engagement. My passion lies in delivering high-quality web solutions that drive business growth and customer satisfaction.

Overall, my journey is about leveraging technical expertise and collaborative skills to innovate and elevate digital experiences, making a meaningful impact on every project I undertake.

WORK EXPERIENCE

Full Stack Web developer

Techmatics Pvt.Ltd [10/02/2024 – Current]

City: Hyderabad | Country: India

- At Techmatics, I serve as a full-stack web developer, spearheading the development of dynamic and responsive websites. My main activities encompass designing and implementing user-friendly interfaces using HTML, CSS, and JavaScript, ensuring seamless navigation and optimal user experience. I collaborate closely with the design and backend teams to integrate APIs and third-party services, ensuring the smooth functionality of web applications.
- My responsibilities also include writing clean, efficient, and scalable code while adhering to best practices and industry standards. I am actively involved in the entire project lifecycle, from initial requirement gathering and technical planning to deployment and post-launch support. Additionally, I troubleshoot and resolve issues promptly, performing regular code reviews and testing to maintain high-quality standards.
- By staying updated with the latest technologies and trends, I continually strive to enhance the functionality and performance of our web solutions, contributing to Techmatics' reputation for delivering innovative and reliable digital experiences.

Full Stack Web developer

Optimus IT Solutions [03/02/2022 – 09/02/2024]

City: Nellore | Country: India

- Acquired proficiency in web development technologies including HTML, CSS, JavaScript, jQuery, PHP, and MySQL.
- Played a pivotal role in the development and delivery of diverse projects, such as medical, cab, and jewelry websites, demonstrating adaptability and problem-solving skills.
- Actively collaborated with cross-functional teams to ensure project success, fostering a positive work environment and effective communication channels.
- Demonstrated a commitment to continuous learning by staying updated on emerging web development technologies and best practices, enhancing skill sets and contributing to organizational growth.
- These projects have not only allowed me to apply my technical skills but have also honed my ability to communicate effectively with clients and stakeholders.

PROJECTS

E-Commerce Website (Dynamic) Self-Project:

- Developed a dynamic e-commerce website from scratch, focusing on creating a functional and user-friendly online shopping platform.
- Implemented a comprehensive product catalog with search functionality, allowing users to easily browse and find items of interest.
- Created a shopping cart system and checkout process, enabling users to add items, update quantities, and proceed through a seamless transaction process.
- This project was aimed at honing my skills in both frontend and backend web development while also creating a functional and user-friendly online shopping platform

Ruhi's Kitchen Dynamic Website Self-Project:

- I developed a dynamic website for Ruhi's Kitchen, designed to reflect the restaurant's theme and meet client requirements comprehensively. Unlike typical restaurant websites, this project included extensive information on kitchen hygiene maintenance and detailed staff profiles, showcasing each chef's special dishes and professional background. A unique feature is the integration of staff feedback and customer reviews, enhancing transparency and trust. The site also features a detailed menu with real-time updates on special items and offers.
- My goal was to provide a platform that covers all aspects of the restaurant, catering to the modern customer's need for thorough information before dining. The user-friendly, responsive design ensures optimal viewing across all devices, making it accessible and engaging. This approach has significantly boosted customer satisfaction by offering an in-depth view of the restaurant's operations, hygiene standards, and staff expertise, ultimately setting Ruhi's Kitchen apart from its competitors and enhancing its online presence.

MANAGEMENT AND LEADERSHIP SKILLS

Developed Management and Leadership Skills through College Fests and Debate Competitions College fests and debates honed my management and leadership skills. I organize, strategize, and lead teams effectively, fostering creativity and engagement. Clear communication, decisive actions, and collaboration drive successful outcomes, addressing societal issues and securing sponsorships.

VOLUNTEERING

Community Engagement and Volunteering Contributions Volunteering in Andhra Pradesh, I organized a Job Mela, managed logistics, and assisted job seekers. Also, I helped facilitate exams like EM CET, ensuring smooth conduct. These experiences improved my organization, communication, and teamwork skills, fostering responsibility and dedication. They contributed to my personal and professional growth, strengthening my commitment to community impact.

Medical Paper Evaluation Volunteer (Observer & Technical Support) Volunteering as technical support and observer for medical paper evaluations, I ensured smooth equipment operation and maintained evaluation integrity. Contributing to fair assessments, I honed technical skills, attention to detail, and commitment to standards. These experiences fueled my passion for advancing medical research and knowledge.
